Assessor Comments	Top draft of the Konongwootong Spring drop 2023 Angus steer calves that present in healthy store condition. Calves have continued to move forward since weaning and in less than ideal seasonal circumstances. If calves are shown the right conditions I believe that these calves will easily hit target feeder weights in the spring. Please note there is a small percentage of calves that have pink eye scarring and some calves showing ringworm. Please also note that the vendor has multiple runs of autumn and spring drop calves in todays sale.
