	These Heifers have a tendency to run when first put in the yards. A few took a while to settle but to be fair we ran them in and started the Pregnancy testing process straight away. They are Heifers that are easier to handle if left to settle first. The odd one played up in the crush , nothing unusual there. Overall Heifers that are easy to handle by experienced operators.		
Handled With	Bikes , Vehicles		
Assessor Comments	A tidy line of well bred rising 3 year old PTIC Millah Murrah blood Heifers that are in good order. They have been joined to Millah Murrah T88 . There is a spread on the calving dates (see attached certificate). As you can see by the video they have the frame , conformation and muscle pattern you would expect from the Millah Murrah blood lines. The breeder has selected bulls on type not price and this shows through. Heifers that will make for front paddock cows. Two have old pink eye scars that does not affect them & one has a touch of white on the navel. Inspections prior to sale welcome.
