Assessor Comments	Quality line of rising 5 year old PTIC Charolais X Angus females. Females are PTIC for a 10 week calving to commence early August 2024. Joined to quality Arden Angus bulls. These fertile & productive breeders had weaners taken off a couple of months ago and had done an excellent job raising their calves. Females are sired by a Charolais bull and are bred out of large frame Arden blood Angus mothers. These females are only being offered to the market due to the season, normally would be retained. Good opportunity to purchased quality young breeders!
