Temperament	Yards	Crush	Paddock
	Quiet: 20 head	Quiet: 16 head Slightly Stirry: 4 head	Quiet: 20 head
	Quiet, well mannered cattle that have been properly educated with Horses, Dogs, Bikes & Vehicles, as well as being very quiet & sensible to handle on foot in and around the yards. All led up the race well and stood quietly on the scales, just 4 that were a little bit anxious, doing some rocking, listed above as slightly stirry. All exited the crush at a walk, and walked out of the yards. The temperament is a real credit to the vendor on the time & education that has been put in to these cattle.

Assessor Comments	Very nice line of proven breeders. Genuine classed females that were part of the core herd, offered for sale due to tightening the calving & retaining the females in the first 5 weeks of joining only. These females will calve in a tight 5 week bracket, starting in early/mid September, with approx 1/2 in the first 2 weeks, and the other half in the following 2 weeks. These are long bodied young mums with plenty of bone, pretty faces & feminine features that represent everything this vendor strives to produce in their breeding herd, being a moderately framed, productive female with good length, good milk and a strong maternal instinct. Proven young mothers that carry years of select Reiland Angus genetics in their pedigree, are PTIC to a Reiland Angus Bull and will be productive matrons for years to come with the stress of that first calf out of the way. An opportunity to secure some genuine closed herd, classed breeders.
