Slightly Stirry: 16 headSlightly Stirry: 14 headTemperament not assessed in

Stirry: 3 head

Stirry: 5 head

Paddock

Cattle all noted as slightly stirry with a handful stirry. Cattle only handled twice a year by experienced stockman with horses, dogs and buggies. These cattle are not for anyone wanting to purchase quiet cattle. No cows assessed were aggressive in any way but they are active cattle that take a bit of settling. Once assessed and photographed we stood in the yards beside them and they were quite content to just stand there with no fuss. For any clarification on temperament please call assessor.

Handled With Dogs , Horses , Vehicles

Notable Traits

Traits

1 Head Slight long back toe

Assessor Comments

On offer is a well bred line of rising 9 year old PTIC Angus cows that are pure Bongongo blood. Cows are to commence calving mid July for 10 weeks. Cattle present as a nice even line and are in tip top calving condition. This article provides excellent genetic merit with vendor purchasing and leasing Bongongo sires based on calving ease & structure. Cows have reared a calf every year and any animals empty at preg testing are sold straight away so fertility is another key attribute to these females. Cows present good value being low maintenance females at their age and right up on the point of calving.
