Assessor Comments	A great opportunity to put together some of the best limousin genetics in the industry. Pure Donna Valley blood cows, with Garren Park calves at foot 1-3 months. Cows are 5-7 years old, and are doing a great job on their calves, particularly considering the tough season. Have been running back with Garren Park Quarterback since 2/5. Cattle that have been bred with a strong focus on temperament & structure. Excellent to handle through the assessment process. Classed in females only being sold due to loss of a lease block.
