Assessor Comments	A line of medium frame structurally sound cows that present in strong store condition, They have successfully reared a heavy weight weaner calf year in year out, The vendor has consistently purchased Hazeldean bulls using carcass traits and growth as a key criteria for selection of sires, The Emu Park herd is well known through Gippsland for producing easy doing cattle suitable for grass or grain programs, These cows carry both EU & Greenhams accreditations and with the benefit of proven performance and short joining these cows are ideal as a foundation herd or to top up an existing herd, Buyers please note they are part of a full spring calving herd dispersal being brought on by seasonal conditions failing in East Gippsland
