Assessor Comments	A line of medium frame, well grown 2022 drop heifers that present in strong store condition, The vendor has consistently purchased Hazeldean bulls using carcass traits and growth as a key criteria for selection of sires, The Emu Park herd is well known through Gippsland for producing easy doing cattle suitable for grass or grain programs, These heifers carry both EU & Greenhams accreditations and with the benefit of proven performance and short joining these heifers are ideal as a foundation herd or to top up an existing herd, Buyers please note they are part of a full spring calving herd dispersal being brought on by seasonal conditions failing in East Gippsland
