Handled With	Cows were very good to handle. On what was seen at assessment, cows could go into any operation small or large. Bikes , On foot , Vehicles		
Assessor Comments	Offering a small draft of PTIC Angus cows out of a productive and functional herd. Cows present in forward order and are moderate framed, deep bodied females. They were PTIC on 28/2 to the Angus sire Rennylea P616 and were very good to handle at assessment. The Cheviot Hills herd produce cattle targeted principally at the heavy feeder market and have had consistent repeat interest. With the outlook for the beef industry very positive, don't miss the chance to add proven & functional PTIC Angus females at an affordable price point.
