Assessor Comments	Buyers, here is a 4 deck line of flatback, backgrounder heifers. Heifers stand on sound bone and present strong frame. They have a live weight range of 232kg to 366kg and averaged 305.7kg at assessment. These heifers were purchased as light weight weaners in November 2023, they have been on good feed and moving forward since then, if given the opportunity on good feed will continue to move forward and grow out well. This line of heifers would be the ideal mob of trade heifers, they are expected to grow out to target weights and suit both the trade and heavy 100 day feeder markets or take through to slaughter weights. Please note, these heifers have been pre-treated for cattle tick to assist with clearing, however, it will be the purchaser's responsibility to ensure all cattle tick regulations are followed.
