|                    | These steers were good to handle in the yards but just needed a little bit of steadying through gateways. A small percentage became agitated in the crush but settled as soon as they were back with the mob.                                                                                                                                                                                           |                                                             |                                     |
| Handled With       | Bikes , Dogs                                                                                                                                                                                                                                                                                                                                                                                            |                                                             |                                     |
| Assessor Comments  | A good quality line of well handled Droughtmaster & Droughtmaster cross steers with plenty of frame. There's plenty of weight gain opportunity with these steers. They are ideal cattle to put on some winter crop & grow out for heavy feeders or the bullock market. Buyers please note there is 6 steers in the mob with slight rub from buffalo flies & 1 steers which was born with a stumpy tail. |                                                             |                                     |
