| Assessor Comments  | 19 Un-weaned Angus, Angus/Simmental Steers average full weight 302kg. Had two 7 in 1 vaccine shots and Pestigard vaccine. Steers are in good fresh forward condition with a big winter coat. Very well grown and show good bone structure and body development with no faults observed. Past drops of these stock have been conditioned for local butcher trade very suitable to take up to trade feeder weight or heavier markets. Cattle are quiet and well handled. Herd is continually joined. All progeny are by a single sire Angus bull. Colors are nine black, five black baldy and five grey creamy. Note one steer top weight 361kg is six months older than the other 18 head. |                                     |       |                 |                |                |                                     |           |      |
