Assessor Comments	Restockers here's a great opportunity to top up a paddock with young fertile structurally sound genuine crossbred breeders. Vet tested in calf 4-8 months. We sold the last crop of weaners through Dalby Saleyard's and they met goood strong competition, and were also sired by the Angus bull. At assessment these breeders appear sound in the hips, legs, udders and eyes. This genuine line of breeders will complement any crossbred herd. I recommend these breeders.
