Assessor Comments	34 - EU Accredited Angus Heifers PTIC as 2nd Calvers to Stud Bald Ridge & Sumo Wagyu Bulls. Heifers are 2021 drop rising 3 years in the coming spring. Sale of heifers due to the retention of younger breeding females, heifers are surplus to breeding requirements. NOTE: Heifers are noted as continuously joined, this is because the exact joining dates are unknown. Vendor suggest bulls were introduced in the months October & November 2023. At pregnancy testing all heifers were noted to be greater then 4 months but a exact commencement date of calving date wasn't established, purchasers please make your allowances 2 heifers were noted to have old blue eye scarring. Heifers were Vet pregnancy tested prior to assessment, certificate attached in documents. Sale of heifers presents an opportunity to purchase a line of young Angus Females PTIC to take on & calve down as future breeders.
