Assessor Comments	A good Quality line of ' Glenmorgan ' blood Angus heifers that were purchased early January from the Northern tablelands as PTIC heifers. These Heifers were in calf to a selected low birth weight bull which made calving an enjoyable process. All have been running on improved and native pasture country which photos will display the cracking job they are doing on their calves. All calves have been marked and vaccinated. On this particular property there are no bulls and have not had the opportunity and would be ready for the bull of your choice. A great opportunity to put a decent line of young females together with the hard work done and their whole life ahead. Please take note there is another lot in this same sale.
