Assessor Comments	An outstanding line of PTIC second calving cows. These young females are set to start calving mid-July to high quality Landfall Angus bulls. They present in store/forward store condition in what has been a tight season in the district. They are good medium frame females that will continue to mature into top breeders. These females are classed-in and give the purchaser an excellent opportunity to secure an even line of one-mark females not usually offered to the open market. The cows show good type and temperament and would be an asset to any Angus breeding operation.
