Assessor Comments	Quality Heifers with first calf at foot. Presenting in strong store condition, calves are marked = (7 x Heifers & 6 x Steers) calved in a tight 3 week window. Heifers were purchased as PTIC off A+ in January to calve down, vendor now on selling them as a unit to be re-joined to the bull of your choice. They have put everything into their calves and therefore showing signs of tough seasonal conditions. Cattle are up to date with all vaccines, heifers drenched with Virbamec plus to get on top of any wintery health problems that could arise. With spring only a few months away and some recent rain these heifers & calves will grow out well considering their breeding and bloodlines. NOTE: 1 with white udder, 1 with old pink eye scarring
