Health Treatments	Other Treatment	20/03/2024	Easy-dose
Chemical Residue	Clear - No known history.		
J-BAS Score	6		

Vendor Comments	A good line of annual turnoff weaner steers.

Temperament

Yards	Crush	Paddock
Quiet: 95 head Slightly Stirry: 8 head	Quiet: 89 head Slightly Stirry: 12 head Stirry: 2 head	Temperament not assessed in Paddock

Weaner steers moved fairly quietly through yards provided it was done at a slow pace. Under pressure they behaved like a typical weaner with a tendency to move quickly, especially if they became isolated from the main mob. Handled reasonably well through the force and race but did resent being up close and personal on the scales in the crush. These steers are expected to settle further after being tailed and yarded using horses and motorbikes.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses
Assessor Comments	Buyers, presented is a great opportunity to purchase a 3 deck line of good quality, freshly weaned mainly flatback crossbred steers. Most of the steers appear to be flatback types however there are some steers (maybe 15-20 head) with some Brangus or Droughtmaster content so consequently a slight crest and longer ear. These steers would be ideal to put into a fresh paddock or on crop. They are nice soft steers and are developing very well to possess plenty of bone, depth of barrel and muscling. These steers are an ideal proposition for a backgrounding operation to take through to either domestic or export feedlot entry weights.
Assessor	**Bob Jakins (Level 1 Accredited)** Phone: 0419 788 366 Parallel Assessed By : William McArthur
Delivery Period	24/06/2024 to 26/06/2024 (3 days)
