|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Assessor Comments  | 13 Simmental cross Santa/Droughtmaster steers exhibiting good bone and frame, with a top weight of 443kg, bottom weight 346kg to average 373kg. A depth of breeding throughout. 5 head had been dehorned approximately 3 to 4 weeks ago as seen in photos, not completed healed. These steers were younger calves from last years annual turnoff, henceforth the vendor has grown them out. Please Note: The vendor has other lots in this sale. |
| Assessor           | <b>Daven Vohland (Level 2 Accredited)</b>                                                                                                                                                                                                                                                                                                                                                                                                        |
| Delivery Period    | 22/06/2024 to 26/06/2024 (5 days)                                                                                                                                                                                                                                                                                                                                                                                                                |
