Very quiet steers to handle, 1 steer moved around on the scales when being weighed but walked out of the crush. Excellent while being filmed in the yards and small paddock. An absolute credit to the vendors on these well handled steers.

5 Head	White underneath

Assessor Comments An EXCEPTIONAL line of black composite Steers by Hicks bulls out of Angus cows. They are the " Tops of the drop", with only a very small tail removed. Steers are 9 -10 months of age and are showing very good length and muscle for their age. Steers are well grown, very quiet and ready grow out to heavy feeders or kill cattle. They were excellent to handle in the yards and paddock while filming. A credit to the vendors on the temperament of the steers. A small portion have a bit of ring worm starting on the head and neck.
