Assessor Comments	Top draft of Arcadia Farms spring drop steer weaners 9-10mths. Steers that weaned really well and settled beautifully which was evident when assessing. Steers are a mix of vendor bred being Lawson/Rennylea blood, others are calves from heifer purchased PTIC in calf to Eaglehawk bulls. Excellent quality steers to tuck away that are proven performers in all situations. Season has been very challenging to add weight to these weaned cattle, however there healthy and ready to jump when the weather turns in 6-8 weeks time. Ringworm evident amongst some animals.
