Assessor Comments	A nice line of hereford steers out of some very good purchased hereford cows, these calves were well weaned in may and are very easy to handle cattle through the yards, these cattle show very good frame and and will respond instantly given the chance on feed, please note that any bigger horns were dehorned at assessment and after photos with only a handful, of smaller horns left alone,there is 1 black baldy in mob there was also very odd pinkeye scarring from weaning which have all healed and seemed not detrimental, note vendor has 53 of the sisters to these in same sale to help with trucking
