	Cows handled well through the older style cattle yards, most cows have never been preg tested before, though handled it well - 8 cows stirred up a bit in the crush but settled as soon as they were let back with the mob							
Handled With	Bikes , On foot , Vehicles							
Assessor Comments	21 x 17 very good quality vendor bred Droughtmaster cows with calves and PTIC cows. These cows are 3 to 8 years old with vendor stating most cows would be 5-6, with a lot of breeding life in front of them. Large frame cows with Quality Droughtmaster and Angus calves at foot. 4 of these cows were preg tested over 4 months in calf with all cows with calves at foot testing undetectable, and absolutely no bull on the place after preg test. These cows were great to handle through assessment and mothering with only 4 cows becoming agitated when singled out. Please note at time of assessment 1 cow had blight in one eye which was treated at assessment. This is a genuine sale as the vendor is downsizing.
