	Heifers where good to process through the yards for assessment, 5 heifers where slightly stirry when being weighed in crush but remained calm once back in the mob.			
Handled With	Bikes , Dogs , On foot , Vehicles			
Notable Traits	Traits 2 Head Blue eyes. 4 Head Old ring worm scarring. 5 Head White underneath behind navel.			
Assessor Comments	45 Excellent quality PTIC future breeder Angus heifers. 17 - 19 months old, these heifers are in forward store condition and averaged 425.6kgs (curfew weight) at the time of assessment. Vendor has used pure Abbington bloodlines for over 30 years and has always grown out really efficient breeders. These heifers would make great future breeders and have been preg tested up. Heifers are moderate framed and display plenty of depth, shape and bone early on and will only continue to improve with age and development. Please note buyers there are 2 heifers with blue eyes which seems to be old scarring not deemed detrimental. 4 heifers with a small section of old ring worm scarring around neck and jaw region. 5 heifers with white udders but no white in front of the navel.			
Assessor	James Gibson (Level 3 Accredited)
