Vendor Comments

Productive young cows, only being offered due to a change in direction towards more of a backgrounding operation, rather than breeding.

Joining Details	Station Mated - Continuously Joined Bull Breed(s): Angus			
Preg Tested?	Yes, this lot was pregnancy tested, by HENNIE STRYDOM (Vet) on 25/05/2024. 6 Head (100%) PTIC, from 5 to 6 months (at time of assessment 18/06/2024). Certificate Available.

			Temperament not assessed in Paddock	
	Cows were relaxed and calm whilst handling in the yards and crush			
	Bikes , On foot , Vehicles			
Notable Traits	Traits 1 Head slight white on udder of 1 cow			
Assessor Comments	A very good quality smaller line PTIC Angus cows in the prime of their lives. These cows were purchased as yearling heifers & utilised in a breeding operation, & are being offered, along with another line of station mated Angus cows & calves, due to the vendor wanting to streamline operations more towards a backgrounding / feeder set up. These well bred, quiet tempered cows are of good frame & are presenting in very forward/fresh condition. Cows have been joined to the grandson of MILLAH MURRAH KRUZE TIME K400, on a continually joined basis, & Vet established at preg-testing (24/5/24) cows to be 4 months plus in calf, making them currently around 5 months or more in calf. A great complement to any Angus herd. Vendor also has on offer this sale, 9 x 9 station mated, same age, Angus cow & calf units, which were preg-tested at the same time, with 4 cows found to be PTIC (around 3 months) & 5 cows NDP at time of testing over a month ago, for buyers seeking a larger load for trucking.			
Assessor	John Hyland (Level 3 Accredited) Phone: 0429 207 560
