Assessor Comments	Top quality line of PTIC angus females rising 5-7 yrs of age. They present evenly as a group and range from forward store to forward condition. They are bred from a very good local self replacing angus herd and all progeny are proven performers amongst previous purchasers. Cows have been identified as later cycling and will commence calving the first week of October for 2-3 weeks. They stand well on their feet and carry their weight well. Please note vendor offering a small line of older age group females in the sale. Noted one cow with a blue eye
