Temperament	Yards	Crush	Paddock
	Quiet: 27 head Slightly Stirry: 2 head	Quiet: 23 head Slightly Stirry: 6 head	Temperament not assessed in Paddock
	Well mannered females that have had plenty of handling. A few (6) were quite nervous in the crush, stepping on and off the scales and some pushing on the head bale, listed above as slightly stirry. All were much more settled in the yard and away from the confines of the race & crush. All exited the yard sensibly and were quiet to get photos & videos of.

Assessor Comments	Proven young breeders that have all produced a calf every year, only being removed from the herd this year due to falling in to a later calving window. These are easy, low maintenance breeders boasting 40 years of select Te Mania genetics. Healthy mums that offer an excellent opportunity for a buyer to secure some rich genetics. The Ardenside Angus Steers are always highly sought after by top end feedlots, having no trouble hitting those optimum feedlot weights (>450kg) at 14-15 months, and the Heifer portion have always attracted keen interest as future breeders. Perfect females to use as the foundations matrons to build a herd on, and retain some top quality, genetically exceptional keeper heifers from. Buyers please Note.
