	Quiet: 23 head	Quiet: 22 head Slightly Stirry: 1 head	Temperament not assessed in Paddock
	Easy, mature aged breeders that know the ropers. Some cunning behaviour, trying to test the waters in the force and avoid leading up the race, but quickly accepting defeat and leading up sensibly. 1 cow a bit anxious in the crush (big long cow that had trouble fitting on the scales) All exited the yards very sensibly and were easy to get photos & videos of.

Notable Traits	Traits		
	3 Head Eye Blemish		
	1 Head Slight long toe - Non detrimental		
Assessor Comments	Mature age breeders that have remained in the system by successfully rearing a calf every year, proving good fertility & sound structure. These are extremely well bred females boasting 40 years of select Te Mania genetics in their pedigree. The Ardenside Angus Steers are always highly sought after by top end feedlots, having no trouble hitting those optimum feedlot weights (>450kg) at 14-15 months, and the Heifer portion have always attracted keen interest & many repeat buyers as future breeders. Sound, experienced females with plenty of productivity left in them, presenting an excellent opportunity for a buyer to secure some rich genetics, making them ideal females calve down & split, or retain some top quality, genetically exceptional keeper heifers from. Buyers please Note. Vendor has another 5 lots of younger PTIC females in this sale.
