Assessor Comments	An excellent line of proven breeding cows. The Majority of these cows, 18 head, were bought in from Quarterford Angus stud as heifers and have raised three calves already. The remaining two head are vendor bred cows that have raised their first calf and have their second calf on board. These cows have plenty of depth and length and are first class matrons with years of productivity ahead of them. They would be an outstanding addition to any herd or would also lend themselves to bull breeding, being that the majority of them were HBR registered when purchased. A reluctant sale of very quiet easy doing cows as the vendor is moving away from spring calving due to seasonal conditions.
