Assessor Comments 96 Good quality Brangus Heifers, Preg tested empty by a veterinarian on 24 / 06 / 24. All polled & showing the best traits of their breed. 100 % weighed. Delivery point weight of 314 Kgs. These heifers are bred in the Basalt country north of Hughenden which represents superior breeding, and fattening country. The McNamaras have been breeding Brangus cattle for 40 years, at the recent Hughenden Ag Show in June Delbessie steers took out the champion pen of steers. Heifers would make excellent feeder heifers or would look good in a future breeder herd. One heifer with slight hump balance flat backs. No known prickly, Acacia on the property. Best described as a tidy & well-presented line. One Brand, Vendor Bred, No H G P. Vendor to cover clearing costs.
