	Well handled cattle for unweaned heifers. They stood well in the yard and worked well up into the crush for weighing with minimal fuss.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , On foot , Vehicles		
Assessor Comments	Offering 97 unweaned heifers. These weaners were 276kg live at assessment. The cattle have had a great start to life and show great weight for age. The weaners are out of large frame mainly crossbred cows with quality bulls used over them to produce well bred calves. The cattle are un-weaned and will stay on their mothers until delivery. This is a good mob of calves that have not had a set back in life and are ready to power ahead to feeder weights or be classed up and retained as future breeders.
