Assessor Comments	A good quality line of Angus x Steers, 276 kgs to 393 kgs to avg 314 kgs (7 hours off feed) An obvious tail has been removed. The steers are the top draft of the drop and are generally quiet and easy to handle in the yards (see two separate videos). They are fresh in the coat and going ahead well in condition. Mostly all strong Angus cross except for a small percentage that are progeny of cows with brahman content. This is a good opportunity to buy good quality Angus cross weaner steers to put away. (Vendor happy to scan tags for buyer at no cost if required). Additional line of lighter Angus cross steers in this sale as well.
