Vendor Comments

A good quality line of young Heifer weaners that would make great replacement heifers or backgrounders to continue on

the oats.

Assessor Comments	A Quality line of young Angus cross heifers, heifers are bred from a very good quality composite Angus Black Galloway herd that has a stud foundation. Heifers are bred out Quality Angus/Black Galloway females and are sired by Quality Angus sires including Killian Rainman & A.I sons of Sav America & Hernia 469. Heifers are soft famine types with plenty of stretch and balance. Heifers are well weaned and present in very good forward condition on the back of being on an oat crop. Temperament is a stand out attribute of these heifers, very quiet and easy to handle. Heifers will grow into very nice future breeders for any one looking to breed Black cattle, alternatively heifers would suit all domestic feeder or process markets down the line.
