	Heifers are good to handle. 3 heifers slightly stirry in small yard & crush but settled into the mob well. Heifers became quick to move through yards at times then settled quickly.					
Handled With	Bikes , Vehicles					
Assessor Comments	NSM Angus x Angus future breeders. Quality line of New England and Northern rivers bred heifers in a suitable weight range for joining. Soft heifers recently drenched and vaccinated that have been performing well, vendor selling to complete his annual turn off for winter.. Previous draft of a heavier weight range heifers pregnancy tested empty tested by Glen Innes Vet on the 15/06/24. This line of heifers were run as a mob with the previously mentioned empty heifers and have not seen any bulls/stags. This presents an excellent opportunity to join to the bull of your choice. Equally suited to finish on grass or grain targeting feeder or domestic kill markets. 3 heifers were noted to have blue eyes - not considered detrimental. 2 heifers showing slight worts.
