Assessor Comments	Smart line of vendor bred Angus weaner steers that are keenly sought by repeat buyers. Steers weighed 155kg to 217kg to average 195.3kg following a 18 hour dry curfew. These weaners were good to handle during assessment and drafting, normally worked with dogs from a vehicle and will now remain in the yards and adjoinging holding paddock up until delivery, for weaning and further handling. Brother lines in the same sale. No allowance has been made for weight loss during weaning - make your own assessment. Calves will be fed on Oaten and Vetch hay.
