Assessor Comments	Small line of vendor bred Angus Baldy weaner heifers that are keenly sought by repeat buyers. Heifers weighed 157kg to 245kg to average 207.8kg following a 18 hour dry curfew. These weaners were good to handle during assessment and drafting, normally worked with dogs from a vehicle and will now remain in the yards and adjoining holding paddock up until delivery, for weaning and further handling. Sister & Brother lines in the same sale. No allowance has been made for weight loss during weaning - make your own assessment. Calves will be fed on Oaten and Vetch hay.
