|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
| Assessor Comments  | Lead draft of Angus heifers. Heifers are by Onslow sires out of medium to large frame cows. Heifers show good bone, depth and type. At assessment all heifers were weighed out 220kg plus. If given the opportunity will reach heavy feeder weights to kill specs. Or could be retained to be used a breeding program. Good young heifers. Buyers please note vendor has a lot of steers in todays sale. |  |  |
