Very quiet well handled weaner Heifers that were easy to handle in the yards.

Handled With: Bikes , On foot , Vehicles

Assessor Comments: A nice line of well bred spring drop Angus Heifer calves. These heifers have been weaned for10 weeks and have had a small tail drafted off. Most of these Heifers are $ Angus blood with approx 20% Te Mania blood and although reasonably light in condition are fit and healthy and given good feed and time would grow into a nice line of cows or feeder heifers. The Autumn has been tough but they were weaned early and given plenty of hay to keep them moving along. These calves are Organic certified EU accredited and PCAS eligible. Calves are all fit and strong with no Warts, Ringworm or eye problems in the whole mob. These heifers would normally be retained but are being sold due to continued dry conditions. Would power ahead on good feed as season has been tight in the South West.
