| Assessor Comments  | <p>A good line of Angus PTIC cows with the majority of the mob being large to medium frame. Cows are due to calf late winter/early spring. These cows would suit a trade job by growing the calf and having a good frame cow to fatten at the end. Alternately, the buyer could also retain as breeders for another season or two. PLEASE NOTE: Some cows do have blight scarring and one cow is showing white on the udder.</p> |                |         |
