Assessor Comments	Mostly good and very good quality cows, that are heavily pregnant in calf to quality Droughtmaster and Sangus bulls. These cows are vendor bred and have been selected for fertility, temperament and type over many years. These breeders are ideal to calve out and trade or take through to a split. The progeny of these breeders show high performance from backgrounding, through to slaughter as either grass or grain fed as well as high demand when being sold as weaners.
