Assessor Comments	Buyers, On offer is a small neat line of Angus X Angus PTIC Heifers that have years of breeding. Heifers are bred out of "Kala" Ex stud cows and sired by Airvale G5 sons. Quiet temperament is a trait that is highly selected for at the Kala property and these cattle are no exception. With health treatments up to date these would be an ideal start up mob or addition to a self replacing herd. These heifers are joined to a bull that has proven with the vendor for ease of calving in previous heifer joining. For further information please call.
