Assessor Comments	24 Quality young females joined to proven low birth weight Black Simmental bulls, Ranging from 478kg to 743kg to average 584kg at assessment. These lovely young females are due to start calving early spring, In the Scanners opinion there are 2 females @ 5 months whilst the balance are 6.5 months plus up to Springing. These Heifers were scanned by local Scanner Loch Charlton and a certificate is available upon request. The vendor is confident in these bulls as low birth weight and high growth rates as they have calved plenty of heifers previously.
