Assessor Comments	8 Quality young females joined to proven low birth weight Black Simmental bulls, Ranging from 462kg to 616kg to average 533kg at assessment. These lovely young females are due to start calving mid November, In the Scanners opinion they are 2 / 4 months in calf. These Heifers were scanned by local Scanner Loch Charlton and a certificate is available upon request. The vendor is confident in these bulls as low birth weight and high growth rates as they have calved plenty of heifers previously.
