Assessor Comments A run of empty cows that are ready to feed or breed, seasonal conditions in the later part of last year didn't help the joining of these cows but they have since gained a lot of condition with better quality feed and are ready to set up as a breeder again or fatten as a store cow. Cattle are based on strong cow family's as listed in bloodlines information. They include cow family's purchased from The Bell family, Purcehouse Farms, CTK cattle co, Sevenbardot P/Herefords. Odd eye small scar in eye but nothing detrimental to vision. These are nice cattle and are genetically backed with performance. There are a dozen toward co diction cows in mob but the the general run of cows are a genuine freshening good store that with the continuation of good feed would turn them into a quality heavy cow.
