	Cattle are quiet in paddock being fed hay regularly. When got in yards some did get stirred up when singled out or put in crush. But none were aggressive just keen to be back in mob. As most part were good to handle, and definitely quiet in paddock. (They had fair bit going on at assessment.)

Assessor Comments	On offer is a very nice line of 30 PTIC Angus heifers that are good frame, deep bodied heifers weighing 530 kg avg. These heifers are joined to Rennylea N938 that is a proven LBW bull. They due to calve Aug-Sept so you wont be waiting long. They have had their health treatments so all the works been done. These heifers will be good future breeders and will develop into big cows. They have been fed hay regularly so are quiet in paddock and good to handle. Some heifers did fizz up bit in yards when singled out but have not been through the yards that many times and think will improve and be fine. These are a very nice line of Ridellvue blood heifers all preg tested to a good Rennylea bull. Note the vendor has stock trucks and could help with delivery if required.
