Assessor Comments	On offer is an outstanding draft of 4th calving Angus cows. Based on 'Rennylea' & 'Te Mania' genetics, they are PTIC to 'Team Te Mania' Angus bulls to commence calving in early September for 5 weeks. Bull selection has been a stringent process with a strong focus on temperament, moderate cow weight, calving ease, high growth & IMF! The 'Pardoo' cow herd has gained a phenomenal reputation for producing calves that perform under all circumstances! These females are not culls! They are part of planned herd reduction sale & offer tremendous opportunity for anyone looking to secure Angus genetics from the top shelf! They come with my highest recommendation!! **Please note, vendor has another 19 cows in this sale**
