61-65 cm	16%		

Assessor Comments	660 good quality Mumblebone blood trade weathers. Weathers are on the do and have plenty of frame. Wool is bright and soft with majority being 36mm. These weathers where treated with Maverick after shearing which started on the 20th May 2024. 74% are polled and 21% are horned wethers- small % being larger horn. 260 mouthed at assessment showing 64% lambs teeth and 36% being 2 tooths. These wethers have really started to pack on the weight since shearing and traditionally grow out to big sheep and suit and wool grower or to go on to feed and move onto processor. *Purchasers please note rain predicted for area please speak to agent regarding delivery times*
