	These weaners have settled down very well. They are not totally yard savy just yet so odd heifer is easily spooked and most will always follow ring leaders. Nothing that could be described as aggressive in the mob in the bigger yards and they still need to be steadied down through a gateway, not unusual.

Assessor Comments	The Consuelo EU ACCREDITED Santa backgrounder heifers that have developed a great reputation. Have been offered on A+ for the past 9 years and always attract plenty of repeat buyers who have commented on the great performance these heifers deliver them. Heifers have presented in very good condition from the excellent summer season. They are very soft feminine heifers that exhibit great length and depth of barrel and stacks of breed character. This is an opportunity for a restocker to access some very good quality future breeder heifers for a long-term breeder herd upgrade. Santa cattle in Qld are highly sort after, you can sell them with your eyes shut, and I can't think of a better opportunity for producers to shift focus to a breed that will stick to them for many years. You will go a long way to find a more attractive lot of heifers and I can highly recommend these for this purpose. Clean country buyers note they are offered GUARANTEED CLEAR of the dip.
