	A quiet draft of Steers, very easy to draft out during assessment and weighing. No stir in crush or pound yard, you had to push them out of your way. A credit to vendor for handling .							
Handled With	Horses , On foot							
Assessor Comments	These Unweaned Steers are quality steers with the Angus Sire and good quality Mothers. They have good length and depth and should grow on to great trade feeder steers on Oats or take out to heavy weights. These steers were treated on the 24th June. They will be inspected by a certified Inspector and have been approved. We have not had any problems before. These are the vendors total weaner steers not a draft and we could not fault them. Definitely won't be disappointed. These Steers have been born & bred in Lantana Country
