Assessor Comments	Here are a very good line of Angus and Angus cross steers. These steers are by very good Angus bulls with Bulliac, Burenda and Wattletop bloodlines out of large framed good quality Angus, Santa, Simmental and Droughtmaster cows. These steers handled exceptionally well throughout the yards. These steers have been yard weaned a day prior to assessment and will be properly weaned by the time of delivery. The steers are being tailed out into paddocks whilst in the weaning process for easier handling. These steers are showing plenty of bone and shape and will grow out to suit a trade, heavy feeder or bullock job. All the work is done with these steers showing tidy heads and will be ready to turn out to be growed on. Please note 2 of these steers have blue eyes but have been treated and and are not detrimental to their performance. This vendor also has another lot of cattle in this sale.
